Textile World

The World's Textile Authority

INDEX

To VOLUME 84

January to December, 1934

BRAGDON, LORD & NAGLE COMPANY

Division of McGraw-Hill Publishing Co., Inc.

330 West 42nd St., New York

General Alphabetical Index

PAGES BY ISSUES

January 57-122
February 14 233-298
February 28 413-484
March 623-686
April 819-886
May 1033-1100
June 1235-1302
July 1411-1476
August 1593-1658
September 1783-1852
October 2001-2066
November 2195-2262
December 2385-2452

A

Air Conditioning

Equalizing air conditions 484
Humidity control in woolen mills..... 868
Pin stitches in hosiery may be caused by inadequate conditioning. P. H. Bubeck 1065
Taming the filling—better conditioning methods 1046
Temperature at night 256
Temperature control. W. R. Clendinning. 1269
Throwing silk and rayon and influence of air conditioning. D. S. Chamberlin. 652
American Cotton Mfgrs. Assn.—Charleston meeting 1038
Meeting at Greenville, S. C. 2200
American Society for Testing Materials—Committee D-13 meets in New York. 2212
Commitee D-13 takes steps to speed work 1424
Cotton section of Committee D-13 steals show at spring meeting 851
Future of testing. K. B. Cook..... 1444
Wool subcommittee approves Typp yarn numbering system 2212
American Society of Mechanical Engineers—Stretch-out calculations. J. J. McElroy 2428
American Textile Institute—Eventually—why not now? (ed) 2197
Institute idea (ed) 626
Opinions of executives on suggestion of one association for entire industry.. 60
Textile council favored as alternative to American Textile Institute 2390
"Would beat the drum" for a "Textile Institute." Paolino Gerli 2007
Associations—American Textile Institute idea (ed) 236
American Textile Institutes suggestion and reaction of executives 60

B

Bleaching

Cotton gauze bleaching 279
Defect in bleached garment 669
Felt and hemp bleaching 1445
Knit goods processing—developments due to rayon 838
Processing chronology for 1933..... 473
Processing industry's organization under NRA. W. W. Chase 258
Processing industry's structure complicates problems. W. W. Chase..... 64
Silk and cotton processing problems. W. W. Chase 650
Standard shade of white 1444
Survey of economic status for 1933.... 476
Water treatment for use in finishing plants. Graham Fisher..... 2020
Water treatment helps avoid returns in bleaching. Graham Fisher 1436
Book reviews.....108, 284, 672, 872, 1086, 1287, 1460, 1642, 1836, 2049, 2246, 2436
Business—Pump primed enough? (ed) 626

C

Carpets and Rugs

Carpet code administration. Herbert Gutterson 444
Curled-center rugs. G. R. Robertshaw. 1823
Heated textiles 2015
Latex compounding — simplifies pile fabric making. J. F. Hotchkiss....2402
Pile uneven in carpet..... 105
Velvet carpeting defect 1831
Cellulose film, slit—Rayon's little brothers 1801, crisp fabrics, Marie Stark 2229, metal decorated textiles 2427
Cellophane. See Cellulose film, slit.

Codes

"Before and after"—surprise effect of NRA code 88
Carded cotton yarn code 109
Carpet code administration. Herbert Gutterson 444
Code administration 1257
Conference of Code Authorities debate machine limit 627
Cotton code—machine limitation defended at Chicopee hearing..... 847
Cotton code operation 436
Cotton industry code. G. A. Sloan.... 437
Cotton mill operation under codes discussed at Greensboro meeting..... 69
Cotton textile code (ed) 1237
Hosiery Code Authority fixes price for full-fashioned (ed) 1036
Hosiery Code Authority sets price for full-fashioned 1042
Intelligent adjustment to changing conditions (ed) 63
Knit goods code operation 468
Machinery code director 275
Meetings in silk, wool, underwear and outerwear discuss codes 630
New England small industries don't like codes but are optimistic..... 850
New England takes a vote on effect of code provisions 1426
Processing code operation 476
Rayon code operation 460
Rayon weaving code proves constructive. P. S. Howe 460
Rayon yarn code. S. A. Salvage..... 461
Silk code operation 452
Silk code strengthening industry's position. J. A. Goldsmith 452
Silk throwsters hopeful of stable prices. Dean Hill 453
Small mills face special problems under codes 237
Textile codes at a glance 419
Uniform cost method. C. H. Rowland..1263
Van Horn, Peter—silk industry's new pilot 1044
Wool code administration. Arthur Besse 445
Wool code operation 444
Wool goods selling rules now in effect.1077
Color in tapestry design. C. F. Harleston.1447
Cost findings and costs. See specific headings.

Cotton

Cotton classer finds polarizing microscope valuable tool. C. L. Pattee....2012
Survey of economic status 431
World consumption of American cotton threatened 2214
Cotton Mfgrs. Assn. of Georgia: Breathing spell urged at meeting 1262

Cotton Manufacturing

A.C.M.A. meet at Greenville, S. C.....2200
A.C.M.A. meeting in Charleston reflects better times 1038
Ageing cotton or rayon vat prints. F. A. Newton 255
Balbriggan, preventing curl in 1830
Bankhead Bill (ed) 822
Beating cotton—take care of the settlings. A. B. Broun 1612
Bedford Cord manufactured and finished to specifications. T. C. Coté 1602
Blankets, cotton warp 2033
Bleaching cotton gauze 279
Blending after cleaning discussed by S.T.A. carders 1264
Braid, tension on 1282
Carded cotton yarn code 109
Carding speeds 869
Carding and spinning discussed by Georgia executives 856
Cards do not remove short fiber according to tests. C. D. Brandt.....1613
Carrier rolls. W. H. Adams.....2239
Chronology of year's events—1933..... 433
Clinton Cotton Mills' power plant supplies power also to Lydia Cotton Mills. Guy Makin 2029
Code—machine limitation defended at Chicopee hearing 847
Color puzzle—weave and yarn color combinations. T. R. Hart 252
Committee D 13, Cotton Section, steals show at spring meeting 851
Core yarn. P. M. Crofts.....1831
Core yarn, two methods to equip woolen cards for 634
Cotton mill casualities in New England in 1923-1933 1618
Cotton or wool looms—all cotton fabric and mixture. G. R. Stevens.....2215
Cotton Textile Institute meeting.....2392
Curl in knit goods 2033
Curtains, tentering lace 2432
Darning cotton must meet four requirements. L. L. Kingsford.....1825
Diamond drafts—many patterns with few harnesses. T. R. Hart 2018
Diary of a codified cotton manufacturer 1414
Doubling machine with roll stand 1625
Drafting versus evenness—U. S. Institute for Textile Research 853
Draperies are rough in texture and bold in pattern. W. L. Carmichael.....1062
Drying equipment. B. F. Miller.....2412
800,000 cotton yarn spindles survive in New England 244
Etamines—cotton and wool constructions. Scot. Robertshaw 657
Fabric index makes balanced production possible. H. C. McKenna 1819
Factors which simplify calculation of yarn weight. Thomas Watkins 660
Fashionable cottons as selected by Cotton Textile Institute for spring and summer 842
Filling, chemically conditioned, superior to atmospherically conditioned filling. R. L. Evans 2024
Finishing problems for cotton and silk. W. W. Chase 650
Fireproofed textiles. W. F. Brosnan..2399
Fly-frame tension 2024
Georgia men discuss slashing, weaving..2411
Ginghams, clipped spot. H. L. Robertshaw 1254
Ginghams, plaid—filling draws in.....2433
Heat insulators of textile fibers. A. N. Elliott 84
Heated textiles 2015
Himalaya novelty yarn. Arthur Ouimet.1831
Indo-Japanese agreement improves international situation 239
Industry in position to consolidate its gains. G. A. Sloan 437
Inventories dominate market if not dominated 1417
Japanese cotton mill employees' conditions 1431
Knit outerwear fabrics—mesh patterns and plush effects. Leslie Miner..... 839
Labor under NRA—flash pictures from textile centers 628
Labels cut with the help of the electric eye. R. G. Silbar 1608
Lappet weave. Thomas Nelson..... 70
Machine control benefits consumer as well as industry. B. B. Gossett....1048
Maintenance of machinery discussed at S.R.A. group meeting 1050
Matelassé's return. C. C. Mattmann....2035
Mercerization in cotton acetate dress goods. A. J. Hall 858
Mercerized cotton glove cuffs, stiffening for 2032
Metal-decorated textiles 2427
N.A.C.M. meet at Boston 2200
Naphthol colors applied to cotton fabrics, dyers disagree about methods. F. A. Newton 1623
Napping cotton. Ray Cottrell 1821
Narrow fabrics—hollow cords, binder warps, stuffers. E. J. Gibbons.... 648
Narrow fabrics—survey of types for designers. E. J. Gibbons 2216
National cotton week 1053
Necktie lining curls 669
Net cloths in curtains. Jack Jarmak..1450
1934 fabrics 423
Northern North Carolina-Virginia Division of S.T.A. discuss safety and lubrication 1265
Nubs in cotton and wool goods 2241
Outlook under code operation 436
Pepperell applies maxim that promotion begins at home 1076
Plant operation under code restrictions discussed at Greensboro meeting.... 69
Plush, cotton, manufacture. G. R. Robertshaw, 865, 1625: Arthur Hudson 1278
Polishing cord 868
Pulling-in of filling 2239
Pyroxylin coatings for cotton and rayon. J. T. Gibbons 2222
Quiller, long chain, changing over.... 864
S.T.A. meets at Danville, Va.....2401
Scouring agents 865
Setting the angle of mote knives. J. L. Tucker 864
Shoddy, spinning cotton 1638
Short doffing is a preventable evil. F. L. Byrd 1427
Silk-cotton mixture, dyeing 1639
Sizing cotton needs automatic temperature control. W. R. Clendinning....1269
Sizing rayon—cotton system aided by dual drive. R. Robertson 862
Sloan's loss a blow to the cotton textile industry 1598
Slub-catcher settings 2240
Small mill handicapped? 1051
Solvents, organic. P. S. Brallier.....2033
Solvents, properties and uses of 50 organic 1255
South, conditions in (ed) 1036
Spindles, roller bearing—Spartan Mills conduct tests. F. A. Westbrook..... 640
Spinning and slashing productions..... 278
Springy finish wanted on cotton cloth..2432
Strike settlement in cotton textile industry 1238
Sulphur dyes—application by hydrosulphite method. G. I. Putnam..... 645
Super-twist warps 2433
Survey of economic status 431
Taming the filling—yarn conditioning methods 1046
Tapestry design. C. F. Harleston....1447
Technical deevlopments in 1933..... 434
Tests on cotton yarn processes. U. S. Institute for Textile Research..... 853
Thread, glazing 1638
Thread, glazing. J. L. Mason 1059
Top and bottom creel cleaner. F. E. Baker 2238
Towelling, dusty. Ray Cottrell.....1625
Trumpet holes in cotton spinning..... 104
Twist direction controversy—let's use new terms. E. D. Fowle 1599
Twist formula based on twist strength relation. C. D. Brandt 1054
Twist nomenclature—"S" and "Z"....2044
Twist "S" and "Z" designation considered favorably by Committee D-13 of A.S.T.M. 2212
Twist setting and yarn conditioning. Pearsall & Harvey 2416
Twist, short cut to—turns per inch by new method. W. N. Chace 2207

V670.5 V.84

Twist and strength—relation between count and constant. C. D. Brandt.. 247
Twists, cotton. C. D. Brandt.....2405
Velvet family grows—market widened.2420
Warp sizing considered at U. S. Institute for Textile Research meeting.....1252
Yarn diameter formulas disagree. R. A. C. Scott 1056
Yarn kinked 1282
Yarn yield from top 668
Cotton Textile Institute—Annual meeting in New York 2392
Fashionable cottons as selected by Institute for spring and summer 842
Loss of Sloan 1598

D

Design

Art in industry, once a slogan, now accomplished fact 1045
Color puzzle—weave and yarn color combinations. T. R. Hart 252
Colors juggled to produce varied fabric effects. T. R. Hart 1611
Cotton designs for spring and summer as selected by Cotton Textile Institute.. 842
Cotton on wool looms—all cotton fabrics and mixture. G. R. Stevens....2215
Crispness in French fabrics. Marie Stark 2229
Curled-center mohair rugs. G. R. Robertshaw 1823
Damoisette, multi color. B. D. Blackman 91
Diamond drafts—many patterns with few harnesses. T. R. Hart 2018
Double cloth designs. K. A. C. Scott. 264
Draperies, cotton, are rough in texture and bold in pattern. W. L. Carmichael 1062
Etamines—cotton and wool constructions. Scott, Robertshaw 657
Fabrics launched at Paris openings. Marie Stark 658
Fabrics of 1934 423
Ginghams, clipped-spot. H. L. Robertshaw 1254
Half hose designs 1627
Half hose intricacy of design increasing. C. F. Smith 829
Knit outerwear design. J. F. Cahill... 1082, 2032
Knit outerwear design. Leslie Miner... 268, 1830
Knit outerwear design for latch-needle sinker-top machine. Leslie Miner...1607
Knitwear styles for summer and fall. 832
The lappet weave. Thomas Nelson.... 70
Lastex men's wear 67
Manipulated worsted constructions....1428
Matelassé's return. C. C. Mattmann, Jr..2035
Metal-decorated textiles 2427
Metal novelties for Princess Marina's trousseau 2427
Metallic stripes and checks hold promise. H. L. Robertshaw 1063
Mossy crepe—sand-crepe weave with ondé yarn. C. C. Mattmann, Jr..... 74
Narrow fabrics—hollow cords, binder warps, stuffers. E. J. Gibbons..... 648
Narrow fabrics—survey of types for designers. E. J. Gibbons 2216
Net cloths in curtains. Jack Jarmak..1450
Outerwear knit fabrics—mesh patterns and plush effects. Leslie Miner.... 839
Presser diameter—calculation by knit goods designer. J. F. Cahill 1253
Printed krinkles. Richard Flint.....1432
Printed mossy crepes promise well for 1934. John Black 75
Rayon sheer designs. C. C. Mattmann, Jr. 1791
Russian prints carry local propaganda. 94
Satin in turn-up and stripe weaves for fall. John Picone 1422
Taffeta to treebark—range of popular fabrics. C. C. Mattmann, Jr.....1247
Tapestry design. C. F. Harleston....1447
Velvet family grows—market widened.2420
"We know what we like" (ed).....1413
Women's woolen coatings. G. R. Stevens 643
Yarn diameter formulas disagree. R. A. C. Scott 1056

Dyeing

Acetylated cotton has dyeing properties of acetate. E. Chippindale.....1435
Chronology of year's events—1933.... 473
Cotton silk mixture, dyeing 1639
Damoisette, multi color. B. D. Blackman 91
Dyehouse fog can be eliminated at low cost. B. K. Paget 2210
Hosiery dyeing. R. H. Smith.....1439
Hosiery dyeing, defects avoided. G. H. Clifton 90
Hosiery dyeing—level dyeings on dull-luster. W. H. Hand 2023
Kinks for operating executives 478
Matching shades tests mettle of hosiery dyer. N. D. White 836
Naphthol colors applied to cotton fabrics, dyers disagree about methods. F. A. Newton 1623
Outlook under code operation 476
Plush fabric finishing. Jack Jarmak.... 861
Processing chronology for 1933..... 473
Processing industry's organization under NRA. W. W. Chase 258
Processing industry's structure complicates problems. W. W. Chase 64
Resist spots in acetate-rayon fabric.... 279
Silk and cototn processing problems. W. W. Chase 650
Skein dyeing for use in ingrain hosiery. W. H. Hand 261
Streaks in knit goods 1083
Sulphur dyes—application by hydrosulphite method. G. I. Putnam 645
Survey of economic status in 1933.... 476
Taffetas of viscose-acetate, finishing methods for A. J. Hall 1620
Tailor's wax 1445
Technical developments in 1933..... 474
Temperature control, automatic, needed for dyeing 1269
Union dyeing without union colors....1083
Water treatment helps avoid returns in dyeing. Graham Fisher 1436

E

Engineering

Air conditioning in throwing from engineering standpoint. D. S. Chamberlin 652
Anti-rattling device. W. A. Simond....1279
Automatic coal burners in hosiery mill reduce costs. W. B. Davis..... 89
Boiler blow-off. N. T. Pef..... 859
Boiler modernization cuts fuel cost in woolen mill. T. M. Allen 1827
Boiler room problems discussed at S.T.A. 2406
Clinton Cotton Mills' power plant supplies power also to Lydia Cotton Mills. Guy Makin 2029
Condensing and cooling equipment calculations. C. L. Hubbard.....1446
Diesel engine in the textile field. O. F. Allen 2027
Dual drive aids rayon sizing. R. Robertson 862
Dual-voltage drive on multi color printing machines. Head & Harte 1266
Dyehouse fog can be eliminated at low cost. B. K. Paget.....2210
Gear with double life. H. W. Swan....1278
Hard facing offers reduction in maintenance costs 860
Heat insulators of textile fabrics. A. N. Elliott 84
Kinks for operating executives..... 484
Lighting problem solved for weaving department of German mill. O. W. Bitzenhofer 2396
Machine design improvements for controlled lubrication 1440
Motors in tandem. H. C. Uhl.....1621
Painting mill interior. M. A. Goldrick, Jr. 1060
Rayon plant additions for six months of 1933 238
S.T.A. Master Mechanics discuss power plant efficiency 1268
Saving steam with condensing and cooling equipment. C. L. Hubbard..... 86
Shipping textile machinery 262
Spindles, roller bearing. Spartan Mills conduct tests. F. A. Westbrook.... 640
Spring cleaning for mills. H. H. Iler... 642
Steam-piping data. C. L. Hubbard....1826
Technical developments in 1933..... 479
Temperature at night 256
Water treatment for use in finishing plants. Graham Fisher 2020
Water treatment helps avoid returns in finishing. Graham Fisher.....1436

Exhibitions

Fashion Group show at Rockefeller Center depicts progress of synthetics.... 857
Knitting Arts Exhibition. Textile World Guide 823
Knitting Arts Exhibition in Philadelphia 1067
Knitwear exposition 267
Textile World's guide to Outerwear Show 270

F

Federated Textile Industries, Inc. — First annual dinner — successor to Silk Assn. 630

Finishing

Acetylated cotton. E. Chippindale....1435
Bedford Cord manufactured and finished to specifications. T. C. Coté.....1602
Centering cloth on starching range. H. H. Iler 2238
Chronology of year's events—1933.... 473
Cotton and silk finishing problems. W. W. Chase 650
Cotton gummed label fabric.....1445
Double decatizing for finishing men's wear worsteds. G. L. Atkinson.....2026
Embossing and gray calendering rayon crepes. A. J. Hall 1066
Fireproofed textiles. W. F. Brosnan..2399
Glazing sewing thread 1638
Glazing silk thread 2240
Glazing thread. J. L. Mason.....1059
Glove silk tentering. T. P. Sheridan.... 260
Hard finish on knit goods.....1830
Invoice record in finishing plants. Phillip Dodge 1622
Knit goods processing—developments due to rayon 838
Latex compounding—simplifies pile fabric making. J. F. Hotchkiss.....2402
Layout of hosiery finishing department. M. M. Abrams 87
Mercerization in cotton-acetate dress goods. A. J. Hall 858
Napping cotton. Ray Cottrell.....1821
Neva-wet builts market quickly..... 85
Outlook under code operation 476
Pebble in rayon crepe 104
Pile fabrics, avoid windness in finishing. Jack Jarmak 861
Polishing cord 868
Pretreatment of yarn for unshrinkable knit goods. Raffaele Sansone.....2220
Preventing odd lots of half hose. F. S. Webster 644
Processing chronology for 1933..... 473
Processing industry's organization under NRA. W. W. Chase 258
Processing industry's structure complicates problems. W. W. Chase 64
Pyroxylin coatings for cotton and rayon. J. T. Gibbons 2222
Rayon sizing on cotton system. R. Robertson 862
Rayon taffeta finishing. C. S. Jennings.1246
Rep finishing—preparatory processes important. G. L. Atkinson..... 639
Sash cord sizing 1830
Scour for women's wear coating fabric.2238
Sizing silk crepe 868
Springy finish wanted on cotton cloth..2432
Starch viscosity—to test sizing and finishing materials. G. G. Pierson....1609
Stiffening cotton glove cuffs.....2032
Survey of economic status in 1933.... 476
Taffetas of viscose-acetate, finishing methods for. A. J. Hall 1620
Technical developments in 1933 474
Water treatment for use in finishing plants. Graham Fisher 2020
Water treatment helps avoid returns in finishing. Graham Fisher 1436
Waterproofing metalliness 669
Weighting of silk. W. M. Scott..... 636
Wool crepe finishing 1624
Wool crepes—getting firm finish without glaze. G. L. Atkinson..... 83
Fireproofed textiles. W. F. Brosnan....2399
Flax. See Linen.
France, Dr. E. W.—tribute paid at dinner.1037

G

Georgia Textile Operating Executives—Meeting discusses slashing, weaving..2411

H

Heated textiles 2015
Hemp—sizing sash cord 1830
Hines, Walker D. (ed) 236

Hosiery

Boxed stocks—simple control system. M. M. Abrams 1425
British accept anti-run. J. B. Lancashire 2230
Chafed hosiery 104
Chronology of year's events—1933.... 465
Code Authority sets price for full-fashioned 1042
Costs of manufacturing 868
Drying equipment. B. F. Miller.....2412
Dull finish on hosiery 1639
Dyeing defects avoided. G. H. Clifton. 90
Dyeing dull luster rayon hosiery. W. H. Hand 2023
Dyeing silk hosiery. R. H. Smith....1439
French spun yarn uneven 2240
Full-fashioned selvages. M. C. Miller.. 1258, 1610
Full-fashioned selvages—release of kinks must be even. M. C. Miller.....2240
Full-fashioned sinking. M. C. Miller.. 248
Half hose designs 1627
Half hose—intricacy of design increasing. C. F. Smith 829
Holes in hosiery.....104, 278, 688, 1638
Ingrain hosiery, skein dyeing of rayon for. W. H. Hand 261
Knitting Arts Exhibition 1067
Knitting defects 1083
Knitting kinks 470
Knitwear styles for summer and fall... 832
Knot-tying, faulty 2240
Latches fail to open 1830
Layout of hosiery finishing department. M. M. Abrams 87
Length uneven 669
Matching shade tests mettle of hosiery dyer. N. D. White *836
Narrowing trouble eliminated ...1278, 1625
N.A.H.M. meet in Philadelphia 1043
Outlook under code operation..... 468
Packing slip is aid to full-fashioned operation. M. M. Abrams.....2400
Pin stitches. P. H. Bubeck.....1065
Pin stitches—full-fashioned defect from machine maladjustment. P. H. Bubeck 646
Pitted needles 2238
Power costs in mill reduced with automatic coal burners. W. B. Davis.. 89
Preventing odd lots of half hose. F. S. Webster 644
Ringless hosiery 466
Ringless hosiery patent—where does it lead? 1820
Ringless hosiery requires new selling viewpoint 1244
Ringless hosiery—three carrier. Morris Magnier 826
Seam is clumsy. Albert Gee..... 1278
Seamless chain chart aids hosiery fixer. H. E. Crawford 2028
Seamless is changing—new quality and style. H. E. Katzenmoyer..... 828
Seconds predicted by 9 meter test for raw silk. W. P. Seem 830
Shade varies 2433
Size 84 overstocked—not necessary in full-fashioned mills. M. M. Abrams.2022
Survey of economic status 463
Technical developments in 1933..... 466
Twist "S" and "Z" nomenclature adopted by Hosiery Manufacturers..2213
Two-tone in hosiery 1083
Zebra stripes in hosiery 1283

I

Indo-Japanese agreement 239
Insulators, heat, of textile fibers. A. N. Elliott 84

J

Japan—Conditions of employees in cotton mills 1431
Textiles: the backbone of Japan's progress. W. N. Chace 2010

K

Kinks and wrinkles....438, 454, 462, 470, 478, 1278, 1624, 2238

Knit Goods

Chronology of year's events—1933.... 465
Circular knit design 2432
Curl in cotton knit goods 2033
Dye streaks in knit goods 1083
Elasticity in wool rib 1831
Exposition of knitwear 267
French spun yarn uneven 2240
Friction testing apparatus for rayon producer and knitter. W. B. Sellars... 2408
Graphite marks cause grief. E. S. Cleveland 1625
Hard finish on knit goods 1830
Knitting Arts Exhibiton 1067
Knitting Arts Exhibition — Textile World Guide 823
Knitwear styles for summer and fall.. 832
Outlook under code operation..... 468
Presser diameter—calculation by knit goods designer. J. F. Cahill..... 1253
Pretreatment of yarn for unshrinkable knit goods. Raffaele Sansone..... 2220
Processing knit goods—developments due to rayon 838
Spirality in knit fabric 1278
Stains on knit goods 1283
Stiffening mercerized cotton glove cuffs. 2032
Streak in knitted fabric 2241
Survey of economic status 463
Test data on knit goods seams. William Davis 78
Tricot knitting 865
Waxing knitting yarn 1444
Knit goods. See also Hosiery, Outerwear, Underwear.

L

Labor

Aptitude tests to select mill workers. O. W. Bitzenhofer 2025
Are we going to have a 30-hour week? (ed) 63
Automobile in a mill-yard (ed) 63
Business press survey upon unemployment 2205
Cotton Textile National Industrial Relations Board 1257
Does education of operatives lead to migration? 1824
Federal Trade Commission's textile questionnaire (ed) 2198
Installing labor-saving equipment. D. G. Woolf 2204
Japanese cotton mill employees conditions 1431
Labor unions. B. B. Gossett..... 1240
Machine control benefits consumer as well as industry. B. B. Gossett.... 1048
